Dante,

I can have someone from B&C meet you at the site and show you what you would like to see. I've copied Chuck on this note. He can help coordinate one of his folks to meet up with you.

Thanks,

-jack

Subject: Site Inspection

Taurus and Jack,

EPA will be in Yerington for an August 16th public meeting, and I wanted to take this opportunity to conduct a site inspection the morning after – Wednesday August 17th. I would like to inspect the FMS system and the enhanced evaporation system. Would you guys be able to accommodate this? It would be myself and one (possibly 2) other EPA people.

I am copying Jeryl and Dave D. in case they are interested in joining, although I know Jeryl has conducted site visits himself recently. Thank you in advance for your cooperation!

Dante Rodriguez
